Emily,

Here is another citizen complaint that should be logged in under S/019/0059.

Paul, I will be in the area tomorrow and Wednesday to take a look at this, as well as the tar seep at the abandoned site.

April

Hello April

Thank you for your attention to the issues at PR Springs.

Here are the photos of the erosion at the US oil sands Leonard Murphy mine site. These were taken over the last labor day weekend. Hopefully you can take a look at this when you are down there checking on the old mine seep.
